

Dear Admissions Committee,

I am writing to provide a letter of recommendation in support of Eleonora Sadykova, who has been working under my supervision at "Genomed" for the past year. I highly recommend Eleonora Sadykova for admission to your doctoral program.

Over the course of Eleonora's employment with our company, she has consistently demonstrated herself as a diligent and responsible employee. Starting as a laboratory assistant, she has shown remarkable progress and has been promoted to the position of Senior Specialist. She has also successfully delved into the field of molecular biology, showcasing her adaptability and eagerness to acquire new knowledge.

Furthermore, Eleonora possesses excellent communication skills and displays a proactive attitude. She actively engages in collaborative projects and her ideas and suggestions have proven valuable to our scientific team. Her ability to effectively communicate and interact with colleagues has played a significant role in the successful implementation of various projects.

Eleonora is a talented and motivated researcher who consistently strives for excellence. Her meticulousness, sense of responsibility, and aptitude for quickly grasping new concepts make her an ideal candidate for your doctoral program. I have full confidence that her knowledge, skills, and enthusiasm will greatly contribute to your academic community and scientific research endeavors.

I am pleased to endorse Eleonora and will be happy to address any further inquiries you may have.

Sincerely,

Ksenia Bocharova

Chief technologist
